

Notes from the Fulton NRP meeting of April 1, 2015

Present

John Finlayson, Dave Delvoye

Minutes

The committee approved the minutes of the 3/4/15 meeting.

Pershing Park improvements

There is a proposal for FNA and the Park Board (per Commissioner Bourn) to split the \$15,000 cost of providing shade structures at the Pershing Park wading pool. The committee reviewed a draft list of prioritized funding options for FNA's share of the project and agreed that Community Participation Program Funds were the best option, followed by NRP Phase 2 funds, and, if necessary, NRP Phase 1 funds and Friends of Fulton dollars.

2014 annual report to CPP

The committee reviewed and approved, with no recommended changes, the draft of FNA's annual report to the Community Participation Program. Thanks to Ruth for preparing the six-page document which comprehensively lists and evaluates all of the organization's activities and outreach projects and the level of service provided by City departments and staff.

Other business

The committee deferred discussion of the City's Community Solar Workshops to the Board.
